

VERTICAL FORM FILL & SEAL

A/1200+

The All-Fill A/1200+ Vertical Form Fill & Seal Bagger can provide accurate, efficient packaging of pillow, gusseted, Doy-Style standup bags and hole-punches as well. It is capable of forming and filling bags measuring 2.5" x 3" to 8" x 14" with volumes ranging from .5 oz to 5 lb, at speeds up to 100 cycles per minute with a servo jaw closure. Supported laminate film and unsupported polyethylene stocks can be easily handled with film thickness up to 0.006." Features include 7-inch widescreen color HMI, 50 stored routines, and tool-less changeovers.

The Model A/1200+ is directly compatible with all filling and checkweighing equipment from All-Fill. Color touch screen controls provide easy setup, testing, and operation from self-explanatory screens and selections. Multiple recipes stored in memory can be used for each product, filling amount, or type. As with all our machines, equipment manufacturing, and software programming are performed in-house for continuous, assured service, support, and assistance.

SPECIFICATION SUMMARY:

Package Sizes:	2.5" x 3" to 8" x 14"
Package Weights:	Forms and fills 0.5 oz. to 5 lbs.
Production Rates:	Up to 100 cycles per minute
Tool Size Changeover:	Tool-less changeover
Machine Dimensions:	46.5" x 72.75" x 57"
Roll Diameter:	14"
Electrical:	208/240V, Single Phase, 50/60 HZ., 25A (other voltages available)
Pneumatic:	Up to 15 SCFM at 70 PSI
Component Types:	Common, off-the-shelf components
Routine Storage:	PLC control stores 50 routines with a 7" widescreen color HMI
Environment:	50°F (10°C) to 90°F (32°C) up to 95% relative humidity

VIBRATORY FILLER

COMBINATION SCALES

ALL-FILL CHECKWEIGHING INTEGRATIONS

The All-Fill Checkweigher is an excellent addition to a Vertical Form Fill and Seal system. Pouches exiting a VFFS machine are often contorted. An All-Fill Checkweigher will ensure proper spacing and accurately weigh all packages to reject any that are "out of spec."

ALL-FILL LABELING INTEGRATIONS

If you need to add a label to your bag in-line, All-Fill Labelers will integrate with a Vertical Form Fill & Seal Bagger. The tamp-applied, pressure sensitive label is ideal for promoting sales and other time sensitive messaging on your packaging.

WORLD-CLASS SERVICE & SUPPORT:

We understand downtime and its effect on your bottom line. Packaging machinery is only as strong as its service and support system. If you run into challenges, All-Fill's Service team consists of 15 full time service employees with over 150 years of combined experience in the packaging industry. Our team can train, install, and troubleshoot any All-Fill machinery. We service domestically and in our international territories: Canada, Central and South America, India, China and Australia. Contact our Service team at Service@all-fill.com.

PARTS SUPPORT:

All-Fill machines are designed using the most innovative controls and the highest quality parts and components. All-Fill has an unmatched ability to identify and resolve issues that may arise with your machine. Our parts department provides quality support in a timely manner to reduce your downtime and stocks most parts for quick delivery. From mechanical assemblies, electronic components, tooling, machine accessories and software, we have the parts you need. Contact our Parts Department at AFI-parts@all-fill.com.

INTERNATIONAL INQUIRIES:

All-Fill's packaging machinery is available worldwide for almost any product and industry. Our more than 50 years of engineering expertise combined with our industry leading field support makes us a leader in the industry. We design, manufacture, install and service machinery with maximum accuracy and reliability. Our global presence means uncompromising service and support, no matter what or where your needs are. Reach out today to discuss your project with our international sales team. Contact us at info@all-fill.com.
