

CONTAINER HANDLERS

MODEL/CH

High Speed Container Handling Systems

All-Fill's automatic container handlers provide high throughput and speeds for even the most demanding production environments. This machine can accommodate most filling methods, including continuous or intermittent with product dispensed into funnels traveling on a circular, multi-position turret by an integral infeed conveyor. Timing screws and starwheel components space and position containers into the turret.

SPECIFICATION SUMMARY:

Conveyor:	Stainless steel (Type 304) Conveyor Channel with acetyl flat top chain and variable speed DC drive motor with reducing gearbox, chain sprocketing, and drive components.
Base:	Fully enclosed, stainless steel, clad steel base cabinet with removable access doors, stainless steel top
Container Handling:	Systems include one complete set of container handling parts supplied, including: Infeed & Outfeed Starwheels, Removable Main Starwheel Segments, Outer Guide Rails, Timing Screw & Adapter, Infeed Guide Rails, Intermediate Guide
Filling Positions:	12-60 position fixed turret assembly and funnel carriage
Operating Cycles:	Up to 400+ a minute dependent on number of pockets and fill size
Contact Parts:	Standard 304 Stainless Steel, Optional 316 Stainless Steel
Options:	Container and product vibration, Missing container detection

POWERFUL PLC CONTROLS AND TOUCH SCREEN INTERFACE:

All machine control and operating functions are performed by the latest Programmable Logic Controller (PLC) component of the control panel. All software development is performed in-house by All-Fill's experienced team of programmers and analysts. Operating functions are provided by a large, color, touch screen interface panel. No complicated machine settings to remember – all functions are selected using a few, simple keystrokes.

COMMON APPLICATIONS:

- Ground & Whole Bean Coffee
- Jimmies & Sprinkles
- Dairy Powder
- Cat Litter
- Agricultural Chemicals
- Flake Spice
- Sugar Products
- Protein Powders
- Household chemicals
- Candy
- Flour Products
- Rice & Grains
- Seeds & Fertilizers
- Salt Products
- Nuts

ADDITIONAL MODEL DETAILS:

REMOVABLE HANDLING PARTS:

Modular transfer funnels, starwheels, and other parts removable for different containers, easy clean up, and product changes. Segmented, interlocking parts and assemblies guarantee correct installation and replacement without tools or additional manpower.

CONTAINER POSITIONING

Infeed Timing screw positions container at infeed. Removable starwheel moves containers to Turret positions. Containers are transported to the Rotary Turret by customized timing screw and starwheel arrangement for smooth, controlled movement even at production speeds. Timing screws profiled to exactly match container type and size. And can be easily changed in the field at a minimum of downtime.

MULTIPLE POSITION TURRET:

12-60 position fixed turret assembly with turret & funnel carriage with divider plate, transition flanges, and transfer funnels with corresponding mounting clamps at each till position. Includes variable speed motor, turret jam protection, turret safety shroud assembly with front access panels, and safety interlock switches.

FLOOD FEED DESIGN:

Shown above is the optional flood feed design which eliminates the need for infeed and outfeed star wheels, as well as timing screws.

INNER & OUTER FUNNELS:

Inner and outer funnels make for easy integration with combination scales.

WORLD-CLASS SERVICE & SUPPORT:

We understand downtime and its effect on your bottom line. Packaging machinery is only as strong as its service and support system. If you run into challenges, All-Fill's Service team consists of 15 full time service employees with over 150 years of combined experience in the packaging industry. Our team can train, install, and troubleshoot any All-Fill machinery. We service domestically and in our international territories: Canada, Central and South America, India, China and Australia. Contact our Service team at Service@all-fill.com.

PARTS SUPPORT:

All-Fill machines are designed using the most innovative controls and the highest quality parts and components. All-Fill has an unmatched ability to identify and resolve issues that may arise with your machine. Our parts department provides quality support in a timely manner to reduce your downtime and stocks most parts for quick delivery. From mechanical assemblies, electronic components, tooling, machine accessories and software, we have the parts you need. Contact our Parts Department at AFI-parts@all-fill.com.

INTERNATIONAL INQUIRIES:

All-Fill's packaging machinery is available worldwide for almost any product and industry. Our more than 50 years of engineering expertise combined with our industry leading field support makes us a leader in the industry. We design, manufacture, install and service machinery with maximum accuracy and reliability. Our global presence means uncompromising service and support, no matter what or where your needs are. Reach out today to discuss your project with our international sales team. Contact us at info@all-fill.com.
